

Elevating Road Safety in the Oil and Gas Industry

Course Overview

The Safe Driver by Veriforce program is rigorously developed to combat the high incidence of Serious Injury and Fatality (SIF) crashes involving personal and light-duty company vehicles within the Oil and Gas exploration and production sectors. Extending beyond business operations, this course also focuses on the safety of personnel during their daily commutes.

Target Audience

This course is tailored for instructors and trainers in the Permian Basin, Texas, aiming to equip them with the necessary tools to teach and enforce safe driving practices among drivers of personal vehicles and light-duty company vehicles.

Key Benefits

Targeted Content

Specifically addresses the unique driving conditions and hazards in the Oil and Gas industry.

Practical Tools

Provides instructors with two skills assessment checklists for vehicle inspection and driving skills.

Comprehensive Safety Solutions

Combines legal requirements, safety controls, and best practices to mitigate driving hazards.

Designed for Impact

Safe Driver by Veriforce is not just a course; it's a commitment to transform driving behaviors and ensure the safety of workers in one of the most hazardous industries. By equipping trainers with cutting-edge knowledge and tools, we aim to significantly reduce the distressing record of SIF incidents.

COURSE OUTLINE - 4 HOURS

1. Introduction: Scope, statistics, and the impact of SIF crashes.
2. Preparing to Drive: Emphasis on seat belt usage, visibility, vehicle inspection and vehicle ergonomics.
3. The Big Five: In-depth analysis of the five major factors contributing to vehicle crashes - Speeding, Tailgating, Distracted Driving, Fatigue, and Drugs and Alcohol.
4. Dynamic Roadway: Navigating situational awareness, intersections, and potential hazards.
5. Industry-Endorsed Safe Driving Tools and Policies: Journey management, parking considerations, and the role of telematics.
6. Oil and Gas Driving Hazards: Specific challenges and hazards encountered in the industry.
7. Review and Testing: Key points recap and end-of-class test

Join Us in Making a Difference

Become a part of the solution. Train with Safe Driver by Veriforce and contribute to creating a safer driving environment in the Oil and Gas sector. Together, we can save lives and ensure that every worker returns home safely.
